

we learn, we build, we play with  
**LEGO® Bricks**

# Bricks 4 Kidz

Bricks 4 Kidz are coming to Exeter Primary School as part of our LiFT initiative to share their parent-child Lego building program. Come along and enrol with your children and enjoy engaging in Science, Technology, Engineering and Mathematics activities. See how STEM can impact students learning and change the way children immerse themselves in learning environments.

- ⇒ A BRICKS 4 KIDZ® incursion uses the LEGO® Bricks students LOVE to deliver hands-on lessons related to cross-disciplinary curriculum objectives.
- ⇒ The BRICKS 4 KIDZ® approach to learning is imaginative, multi-sensory and fun, creating a dynamic learning experience for your students.
- ⇒ BRICKS 4 KIDZ® models are the centrepiece of the lesson, which includes an educator-scripted discussion designed to engage students in a discovery process.

**Friday 17th November 2017**
